

Successful learners

Areas of learning

As Scientists we will be thinking about how amazing our bodies are, investigating our senses and using our ideas to write some Horrid Henry sensory poems in English. We will be making our own 'Funnybones' skeletons and organ jigsaws – learning about what these body parts do. We will compare our skeletons with those of different animals.

As Historians – We will be thinking about our own history and how grown up we are. We will travel back in time to explore how nurses now and in the past are superheroes. We will act out what we have been learning and write our own 'Nightingale – To do' lists. We will make 'Shining Light' lamps to detail how special talents can change the world.

As Artists we will be thinking about how our bodies look and creating self portraits, using a variety of different materials. We will look at the work of Picasso and Klee. We will create watercolour backgrounds, abstract face collages and clay skeleton sculptures.

We will be refining our basic computing skills – logging on, using a mouse, dragging and dropping and editing shapes to create a poster to show something we have learned about in this topic.

In PSHE we will be exploring how we value differences and looking at rules, rights and responsibilities.

Confident Individuals

Key Skills across the Curriculum

We will:

Use all of our senses to write a senses poem.

Write some instructions and recipes for tasty, healthy smoothies

Write a list of jobs Florence Nightingale needs to do

Measure our height and compare this with our shoe size

Responsible Citizens

Taking Responsibility

We will:

Take responsibility for designing some classroom rules to make our classroom a happy, safe and respectful learning environment,

Meet 'Rosie' the Responsibility Rabbit who will help us explore these things and take responsibility for following class rules.

British and Christian Values

In those developing our values we will:

Use Psalm 139 to explore how we are 'Fearfully and wonderfully made' and how Holy Spirit can help us to develop talents. We will think about how we can use skills and talents to serve each other.

We will explore our school value 'love' using 1 John 3:16-20 and explore ways this can be developed in our school family.

Explore stewardship of the earth in caring for animals and plants. Genesis 2:15/1:28

Develop listening skills, Class votes and rule making helps us explore democracy.

Communities

As members of a community we will:

Local: Participate in a Harvest Festival
Welcome and help our new reception children to settle into the school community.
Learning about the diversity in our community by having discussions in show and tell and circle time

National: Take part in Road Dahl Day and National Read a Book Day to promote reading in school

Global:

Think about and taste food which is grown/produced in local, national and global communities. Learn about children who have use their talents to change the world.
